The Polyvictimization Assessment Tool is an information integration tool. Please ensure confidentiality is explained and honored for each client. For each event below circle "Y" for yes or "N" for no in the boxes to the right as applicable for the different stages of the client's life (Child and Teen, Adult, and In the last year). In addition to "Y" and "N" user may circle other possible responses which include "A" for the **client did not respond** to the question; "B" for the **user did not ask** due to time constraints or other limitations; and "C" for the user did not ask since it was **not appropriate to ask**. For questions that are not applicable to all clients, an additional "Does not apply" response has been included. When marking an event "In the last year," please also mark the respective time period that it would fall under (Child and Teen OR Adult). Answers should be from the *client's perspective*. If the user has additional input or thoughts, particularly around minimizing, this should be included in the "Notes" section. The number of events calculated for "In the last year" is not a victimization score but should trigger a response at the Center.

Part B: Symptoms

For each symptom circle "Y" for yes or "N" for no in the boxes to the right as applicable for the different stages of the client's life (Child and Teen, Adult, In the last year, and Current Symptom). In addition to "Y" and "N" user may circle other possible responses which include "A" for the **client did not respond** to the question; "B" for the **user did not ask** due to time constraints or other limitations; and "C" for the user did not ask since it was **not appropriate to ask**. When marking a symptom as a "Current Symptom" and "In the last year," please also mark the respective time period that it would fall under (Child and Teen OR Adult). Answers should be from the *client's perspective*. If the user has additional input or thoughts, particularly around minimizing, this should be included in the "Notes" section. The number of symptoms for "In the last year" and "Current Symptoms" are calculated and should assist in guiding service delivery.
